Bridging Health Inc.

'creating a healthier tomorrow'

Vision

To provide health care to underdeveloped countries, beginning with the community of Tanna Island

Bridging Health Inc.

Overview

Bridging Health Inc. formed in 2012, following an ex-villager approaching a nursing student to provide health care to communities on Tanna Island. The initial idea was developed after seeing local village children playing with infected leg wounds and the community having inadequate health care enabling effective wound healing.

From this observation planning commenced to develop a charity to meet the community's needs of providing basic health care. This vision of aiding less fortunate communities by offering health care in a tropical location by visiting qualified health care professionals instigates a healthier future for time forgotten communities.

Concept

In order to deliver the most appropriate health care to the community the following five elements guide our vision:

1. Education - improve basic health care knowledge
2. Appropriate Resources - providing supplies to improve health
3. Sustainability - ensuring continuous improvement of health takes place
4. Empowerment - inspiring local health care professionals to influence health care changes
5. Relevance - ensuring solutions are relevant to local communities

In addition to providing health care on Tanna Island, Bridging Health Inc. members will also have the opportunity to experience and embrace the Vanuatuan culture and in the tropical surroundings of this beautiful island. You may like to finish your time with a few days of resort style living, eating and sight seeing, just to fully appreciate all that Tanna Island offers.

Tanna Lodge offers the opportunity for eating locally grown produce and freshly caught seafood as well as site-seeing tours, water activities, appreciating beautiful beaches and memorable sunsets ensuring an unforgettable time is experienced.

Requirements

What role will you play?

Being a member of Bridging Health Inc., you have signed up to be a part of great things. We expect our members to uphold the charity's constitution and embrace its vision. By attending regular meetings, assisting with fundraising, and where possible travel to Tanna Island our members can make a difference to the lives of many villagers.

Health care professionals will be able to provide health care to the Tanna Island community. Non-health care professionals will be able to assist with the planning and preparation for Vanuatu as well as assisting with administration.

This charity has no limits, and we always welcome new ideas! If you are looking for an opportunity to make a difference, then we would love your help.

When are we travelling?

For the next travel dates, please contact us or take a look at the Facebook page or website. Leading up to the trips, Bridging Health Inc. will undertake various fundraising activities allowing for the purchase of much needed resources, as well as recruiting many enthusiastic members. Trips of this nature have the capacity to change lives. Join us, and together we can make a difference.

I _____ have read the Bridging Health Inc. constitution and hereby agree to uphold its contents and all that it entails. In signing this form I agree I am 18 years or over and are legally able to provide health care by having obtained certification/ registration; or, if not a health worker, a criminal history check within 28 days of the date of this application is attached.
